As a parent, I have to say that the Top Mount Martial Arts after school program has been very beneficial for my daughter. The small group atmosphere in conjunction with the daily practice has really enabled Grace to excel and become proficient in the techniques Mr. Mann is teaching. Mr. Mann is a great instructor and, even more importantly, he is a great role model. He has an easy demeanor and ability to connect with the kids that motivates and inspires them to do their best. I am comfortable leaving my child under his supervision and care after school and would not hesitate to recommend this program to others.

As an elementary school principal, I am impressed with the Top Mount Martial Arts after school program and what they are doing for students in our school. Mr. Mann encourages students to get good grades and requires them to work on homework while in the program. Too many after school programs just plo p the kids in front of a television with no guidance or supervision. Mr. Mann has higher expectations and his students live up to them.

Sincerely,
